

May is Melanoma Awareness Month: Get Educated and Certified in Sun Safety!

Just one blistering sunburn in childhood or adolescence more than doubles a person's chances of developing melanoma later in life. Therefore, educating youth, and those who influence youth, is vital in raising awareness about staying safe in the sun.

The Enright Melanoma Foundation is transforming the way youth learn about staying safe in the sun. In less than 20 minutes, you can get your Staff educated and certified in sun safety through the online **Enright Sun Safety**

Certification™ programs. You can then easily have the youth you serve take these programs and get certified as well. Then have them share their knowledge with friends and family.

The programs are for ages 5 and over, and are designed by skin cancer professionals from the Enright Melanoma Foundation. The programs are available FREE to the public at www.ApplyCoverEnjoy.org. The courses are taught through an advanced e-learning platform with engaging visuals, a healthy dose of creativity, proven instructional methods, and a highly interactive user experience. All of which makes learning about sun safety FUN and EASY.

May is Melanoma Awareness Month. It's our responsibility to educate others about how to make healthy choices regarding sun safety. Please join us by participating in the **Enright Melanoma Awareness Campaign**, and become **Enright Sun Safety Certified™** today. Let's make a difference together!

For more information, and to view a promotional video, please visit <http://enrightmelanomafoundation.org/index.php?pageid=27>. Or contact Executive Director Janet Horowitz at (908) 464-0277 or janet@enrightmelanomafoundation.org, for additional tips on implementing these programs in your organization. The **Lakeland Hills Family YMCA** has taken the pledge; so should you!
